Level

Adjustable Wrench

Hex Wrench

Thread Sealant

Drill

Pencil or Marker

Screwdriver

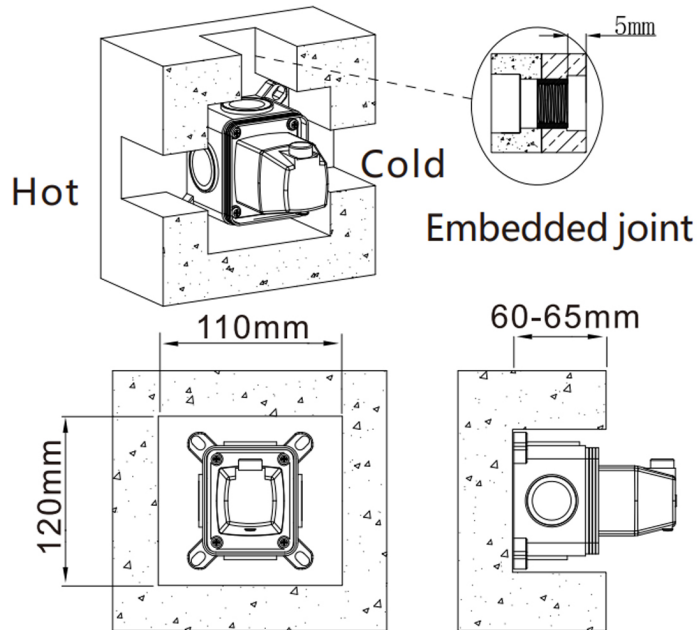

*not included

Fontana Gemona Gun Metal Gray Wall Mounted Bathroom Sink Faucet

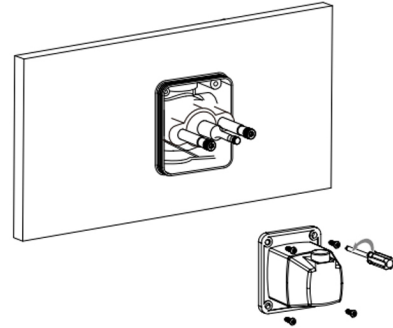

Product Code: FS7226GMC

Wall Mount Installation

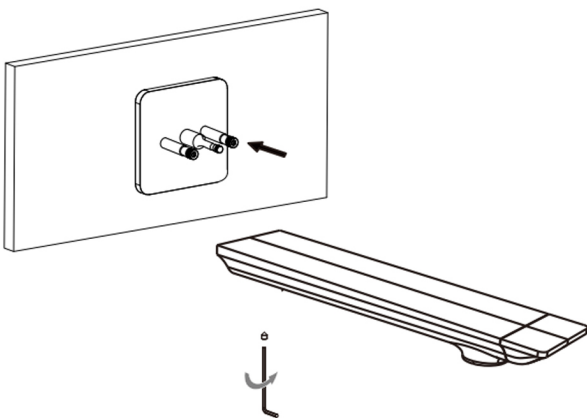

1. Install the buried wall valve body with wall nails according to the opening size and embedment depth. Pay attention to the connection between hot and cold waterways normal

2. After the wall construction is completed, remove the cover of the embedded box. The red water inlet pipe is connected to hot water and the blue water inlet pipe is connected to cold water.

3. Install the panel and align the decorative sleeve with the panel hole. Force the panels evenly and fit them to the wall. Install the outlet nozzle to the connector and lock the bottom screw.

Care & Cleaning:

1. The product can be cleaned with warm water, a mild soap and a clean soft cloth.
2. Clean progressively and gently.
3. It is not required to use any abrasive cleaning pads, wire wool or micro-fibre cloths to clean the product.
4. Avoid a vigorous cleaning action, as this could contribute to denaturing and dulling the finish.
5. Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be detrimental to the product finish.
6. If using a spray cleaner, apply the cleaning agent onto a soft cloth, never directly spray onto the product as the cleaner may enter gaps and openings and cause damage. Do not allow the cleaner to remain on the product for a period of time. After cleaning, rinse thoroughly with clean water

Flexible Connecting Hose:

Care must be taken when connecting the flexible connection hose from the power supply box to the spout to ensure it does not bend sharply and kink or twist. See above for recommended ways to fit the flexible connecting hose.

Important: Failure to follow these guidelines may result in poor performance and damage to the flexible connection hose.
