Step 4

Shower Wall Holder Installation

Decide the position for the shower head holder on the wall within the bath showering area and proceed as follows:

- Hold the hand shower head holder fixing plate in a suitable position on the wall, mark out the position of the holder. Mark the two locating holes, these are 17mm center.
- Drill and plug the wall. Use an appropriate masonry drill, but if the wall is plasterboard or a soft building block, use special wall plugs and an appropriate drill bit.
- Slide the inserts onto the screws in the orientation. Secure the inserts by tightening the screws.
- Slide the hand shower head holder body onto the inserts and secure by tightening the grub screw facing down.

Step 4

Step 5

Step 6

- Release Four handwheel levers according to the above directions.
- Take apart the embed valve, panel, and handwheel.
- Dig the embed space for the pipe on the wall according to the specification of the valve.
- Dig 4 holes according to the position of the screws.
- Use a hammer to thwack the screws into 4 holes.
- Fix the valve body with 4 screws.
- Find out the expansion screw heads with washer and spring washer. Use copper sleeve wrench to lock the screw heads with the embed valve body.
- After connecting all the pipes and before sealing the wall with concrete, confirm no leaking problem occur when you turn on the water.
- Fix the decorative panel on the embedded valve body.
- Screw the handwheel arms with the handwheels

General Information

All products manufactured and supplied by Fontana are safe and comply to legislative requirements. Providing they are installed correctly and receive regular maintenance in accordance with these instructions your user experience will not be affected.

Care & Cleaning

1. The product can be cleaned with warm water, a mild soap and a clean soft cloth.
2. Clean progressively and gently.
3. It is not required to use any abrasive cleaning pads, wire wool or micro-fibre cloths to clean the product.
4. Avoid a vigorous cleaning action, as this could contribute to denaturing and dulling the finish.
5. Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be detrimental to the product finish.
6. If using a spray cleaner, apply the cleaning agent onto a soft cloth, never directly spray onto the product as the cleaner may enter gaps and openings and cause damage. Do not allow the cleaner to remain on the product for a period of time. After cleaning, rinse thoroughly with clean water.
