Shower Head Installation Instructions

Parts:

Step 1:

Mark the 4 drilling positions then use the Ø6 mm drill to drill holes on the wall according to the marked hole position.

Step 2:

Inset the plug(D) into the hole, hold the fix base (C) use the tapping screw (D) through fix base(C) holes, tighten the tapping screw (D) tighten the top shower fixed bar(E) and the inlet hose (F) with the fix base (C)

Step 3:

Fixed the top shower with the top shower fixed bar (E) , then connect with the inlet hose (F) .

Step 4:

Step 5:

2 water inlets for rainfall are provided in big shower heads so the water disperses equally throughout the showerhead.

Step 6:

The installation is completed.

(If you have opted for LED option)

The LED light will change its color by detecting water temperature:

- 0-30°C (32-86°F): Blue LED ■
- 30-40°C (86-104°F): Green LED ■
- 40-50°C (104-122°F): Red LED ■
- 50-100°C (122-212°F): Flashing Red LED ■ ■ ■

Note: The LED lights are powered by water flow, and will be activated once the water is turned on.

Hand Shower Installations Instruction

Step 1:

Step 2:

Step 3:

Step 4:

Hand Shower Outlet Installation

• Complete the outlet pipework ensuring it ends in an appropriate 15mm x 1/2" BSP female thread elbow.

Note: This fitting is not supplied as variations in installations require the selection of a suitable solder or compression fitting.

• Install the 'Wall Outlet', thread long male 1/2" BSP into the appropriate female fitting using PTFE tape to give a watertight joint.

Note: The thread can be cut to size if required. Make sure that all debris is removed from the connector and the section that has been cut is dressed correctly, before installation.

Body Jets Spray Installations Instruction

Step 1: Attach the escutcheon to the body spray.

Step 2: Apply teflon tape to threaded tail pipe of the body spray

Step 3: Press the escutcheon against the finished wall

Step 4: Screw the Body spray tightly into the female of water Supply

Pressure Balancing Loop:

- If installing bodysprays in a bank of 3 or fewer, a pressure balancing loop is not necessary.
- If installing bodysprays in a bank of 4 or greater, a pressure balancing loop must be used to keep the pressure even between the bodysprays.

Mixer Installations Instructions

Step 1

Step 2

Step 3 (Connection)

1. Attach the positioning bar to the rough-in body with tapping screws. Mark the location of the mounting holes.

2. Remove the rough-in body and drill pilot holes at the locations marked in the previous step. Insert anchors.

3. Attach the rough-in body to the wall.

4. Connect the rough-in body to the water supply pipes.

5. Finish the wall surrounding the mixer with a thickness of 1/2"-1-1/2".
a) The finished wall surface should not exceed the upper edge of the installation box.

6. If the tile exceeds the edges of the installation box, trim the tile as necessary to install the trim plate.
b) Trim the tile around the installation box as necessary.

7. Remove the plastic guard and place the trim plate over the installation box.

8. Install the screws covers, handles and buttons.

General Information

All products manufactured and supplied by Fontana are safe and comply to legislative requirements. Providing they are installed correctly and receive regular maintenance in accordance with these instructions your user experience will not be affected.

Care & Cleaning

1. The product can be cleaned with warm water, a mild soap and a clean soft cloth.
2. Clean progressively and gently.
3. It is not required to use any abrasive cleaning pads, wire wool or cloths to clean the product.
4. Avoid a vigorous cleaning action, as this could contribute to denaturing and dulling
5. Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be not be affected.
6. If using a spray cleaner, apply the cleaning agent onto a soft cloth, never directly spray onto the product as the cleaner may enter gaps and openings and cause damage. Do not allow the cleaner to remain on the product for a period of time. After cleaning, rinse thoroughly with clean water.
